Test Introduction script	

Insert here the introductory speech you gave to the participant to put her at ease and inform him/her about what is expected. You know from our Usability Testing lectures, and videos that an introduction is necessary.
The following items must be present here -

- *Your formal introduction*
  - *Your name*
  - *What you do*
  - *And so on*
- *The purpose of the session and the time it might take*
- *Put the users at ease by ensuring that they are not being tested in any way, but rather they are helping us by testing a product for us!*
- *Explain about your website – do not give them too many details, we want them to explore and find out.*
- *Explain how the participant is helping you by participating.*
  - *Explain what you expect to find*
    - *Do not tell them exact results that you hope to find, you will bias them that way*
    - *Explain to them that you are trying to get a general understanding of the site's usability, what works and what does not for a user.*
- *Now point them to the website that they will have to test by giving them the URL.*
